VISION / MISSION

To be the best supply chain partner who can add value to your brand through innovation, quality and agility to respond to our customers needs and the changing market trends.

To provide innovative paper based food packaging solution to customers around the world. To use technology and innovation to pursue alternative custom paper based solutions to single use plastic in order to reduce our and carbon foot print and give our customers the possibility to reduce their carbon foot print.

HOW IT WORKS

IDEA

If you have an idea that is different to what is readily available on the market it can still be created

COOPERATION

We will work together to bring your idea to life, it may just be a bespoke print or a totally new product

GRAPHIC

Our graphics team can create your own logos and designs from scratch to help your brand grow

MATERIAL STUDY

We will help you to pick the most suitable material for the product you need

SAMPLE MAKING

We will create a real lifesamples of the product

APPROVAL

You will analyse the sample and approve it for production

MANUFACTURE

We will manufacture the product in the agreed time scale

DELIVERY

The finished product will be shipped to your door

FOOD TO GO BOXES

We are able to manufacture a wide variety of leak proof food to go boxes, by means of PE Extrusion or PET lamination, are 100% leak-proof. They are perfect to carry sauced foods. Moreover, in addition to being used in carrying salads, chicken, sushi, macaroni and in carrying hot and street foods, mobile catering even planning a party, these Food boxes are perfect and the most reasonable solution for carrying hot and cold foods as well. Furthermore, these boxes, depending on customer desire, are being produced suitable enough to be used in conventional ovens as well as microwaves by coating PE or PET. Again depending on customer desire the printing can be done. In printing these goods and the other printed goods, the protective food lac and food colouring are used. Because of being a producer, we do not limit our customers for the sizes of boxes. We can produce all sizes depending on customer wishes.
